

BAPTISMAL BANNERS

Every time there is a baptism, a baptismal banner is made. Each banner is unique in style and personalized with person's name and date of baptism.

The banner is hung in the church the day of the baptism and is presented to the family as a gift from the congregation.

Some of the families that have received these banners have made comments how much they appreciate them and that they have hung them in the person's room.

It is the hope of our church, that by doing these banners, the families receiving them will remember Grace as a partner to their extended family and that we are here for them.
