

Where's Noah? - Noah's Ark

We are doing "Where's Noah?" for our Lenten services this year. "Where's Noah?" is a lenten program of services and activities by Arley K. Fadness and published by CSS Publishing Company, Inc.

One of the activities suggested in the book were to make animal tokens and have Noah give them out each Wednesday evening. To enhance the token idea and also to give the children something to keep their animal tokens in, Zion designed a Noah's Ark box. We copied the pattern onto brown card stock, folded and glued to form the ark. On Ash Wednesday, as the children arrived at church, Noah gave them each an ark and one animal token. Each week the children bring their ark with them to church and receive another animal token to place in their ark.

This pattern can be used for any number of ideas relating to the Noah's Ark Theme.
