

## **Lesson Plan for Joyful Joyful**

**Subjects:** Children's Bell choir ages 5-9

**Goal** - To successfully play through Joyful, Joyful one time through with minimal mistakes

**Objective** – To review previous practice and finish learning the chorus.

### **Actions:**

1. Set up music stands with each set of music that has the correct highlighted notes on it
2. Line children up in chromatic order of the bells they are playing
3. Review the note names as they are written on the staff
4. Review the rhythms of each note
5. Distribute the appropriate handbells
6. Review the proper technique for holding, ringing, and shutting off the bells
7. Begin to review the verse section that has previously been taught and practiced
8. Introduce the chorus section by reviewing the notes names aurally
9. Begin playing the chorus section by pointing to each bell as it is supposed to ring
10. Repeat step #9 2 or 3 more times to perfect the chorus section
11. Play the chorus section without pointing to each bell
12. Play the entire song from the beginning without stopping

### **Evaluation:**

- 1 Did the students remember the note names from previous lessons?
2. Did the students remember the proper techniques for handling the bells at all times?
3. Did the students remember correctly the verse section of the music?
4. Were the students able to play through the chorus without being pointed at?
- 5 Were the students able to play through the entire song once with minimal mistakes?
